OUTDOOR PAYMENT TERMINALS

Invenco pay-at-pump terminal systems and c-store solutions are designed internally from the ground up to deliver the latest in engaging and affordable forecourt payment technology. **Invenco is the world's first provider of Outdoor EMV payment terminals**, having installed their systems globally since 2004. They have over 125,000 terminals in the field today. The All-in-One Invenco G6 Outdoor Payment Terminal (OPT) is available in **purchase and rental models**.

OUTDOOR EMV TERMINAL FEATURES

- ▶ **Retrofits into any major pump model**
- ▶ Contactless NFC Payment Reader
- ▶ HD Touchscreen Display
- ▶ Thermal printer & 2D Barcode Scanner
- ▶ **Cloud connected and open platform**
- ▶ Encryption & Anti-Skimming technology
- ▶ Installed with limited site interruption

All features come standard with G6 OPT model

PAY-AT-PUMP SYSTEM RENTAL MODEL

- ▶ Achieve outdoor EMV without the huge up-front costs on equipment that loses value quickly.
- ▶ Pay one simple, fixed-rate fee **from \$142 per pump/per month** to rent pay-at-pump equipment that is retrofitted into your existing pumps.¹
- ▶ **Low up-front cost**, just pay for install and required components.
- ▶ Install quickly with limited site interruption.
- ▶ **Skip "surprise" invoices with full-contract warranty covering parts, labor and support.**

UP-FRONT COST COMPARISON²

Re-pump	\$60,000
Pump Mfg. Retrofit	\$25,000
Invenco-i2	\$7,000³

- ▶ Keep sites running and compliant with Invenco-managed remote software and compliance updates, reboots and fix deploys.
- ▶ Keep sites modern with outdoor payment terminal upgrades every four years on contract re-signing.⁴
- ▶ Pop and swap repaid model replaces terminals quickly should any issues arise over contract duration.

Invenco payment terminals are available for sites with Verifone® or NCR® Point-of-Sale system. ¹Next business day repair turnaround from \$157 per pump/per month and 3 business day repair turnaround from \$142 per pump/per month. Professional Service Level Agreement availability based on location. Pricing is Inclusive of Verifone certified integration. Pricing for Verifone integration applies only to specific brands. ²Chart is based on average prices for site with four dispensers. Comparison prices are on average and may change. ³\$7000 installation fee is the average quote for a site with four dispensers. Actual fee is quoted separately and varies according to pump qty, pump type(s), site setup and logistics. Internet connection is not included and will need to be in place prior to install. ⁴A minimal install fee may be required.

- ▶ Access to the Invenco Service Desk

FREQUENTLY ASKED QUESTIONS

WHY WOULD I WANT TO RENT MY PAY-AT-PUMP SYSTEM?

Outdoor payment terminals begin to lose value almost immediately after purchase. They need frequent repairs, become outdated quickly and require regular compliance updates. With owned payment systems, all these things cost money at unpredictable times. Invenco-i2 saves retailers money with no “surprise” invoices, keeps sites modern with terminal upgrades and removes the hassle of tracking software and compliance updates.

HOW ARE INVENCO PAY-AT-PUMP SYSTEMS INSTALLED AND MANAGED?

Invenco wants to work with your trusted service provider(s). If you do not have one, Invenco will assign a partner in your area. Hardware issues follow the “pop-and-swap” repair model, with a new terminal installed according to your SLA turnaround timing. Software issues are troubleshooted remotely by Invenco.

WHAT HAPPENS AFTER FOUR YEARS?

At the end of each contract on resigning, Invenco will install their latest terminal model for a nominal \$200 per pump fee². If you do not choose to renew, Invenco will remove our systems at a convenient time. Invenco-i2 contracts are transferrable should there be an owner change during a four-year contract.

INVENCO BRAND PROGRAMS

Invenco is an approved supplier partner to most major retail fuel brands in the US. Brand pricing and promotions may be available.
