

Your Exclusive Upgrade Offer

Save up to \$2,000 today!* Offer extended to December 31, 2025.

Take advantage of this **exclusive branded upgrade program**. Modernize your Ruby2, RubyCi or Topaz with the Verifone C18—a versatile solution designed to empower your cashiers, enhance self-checkout capabilities and deliver seamless transactions.

Why upgrade?

With the upcoming Commander Release 56.00, the C18 is required for compatibility. Now is the time to make the move and save big!

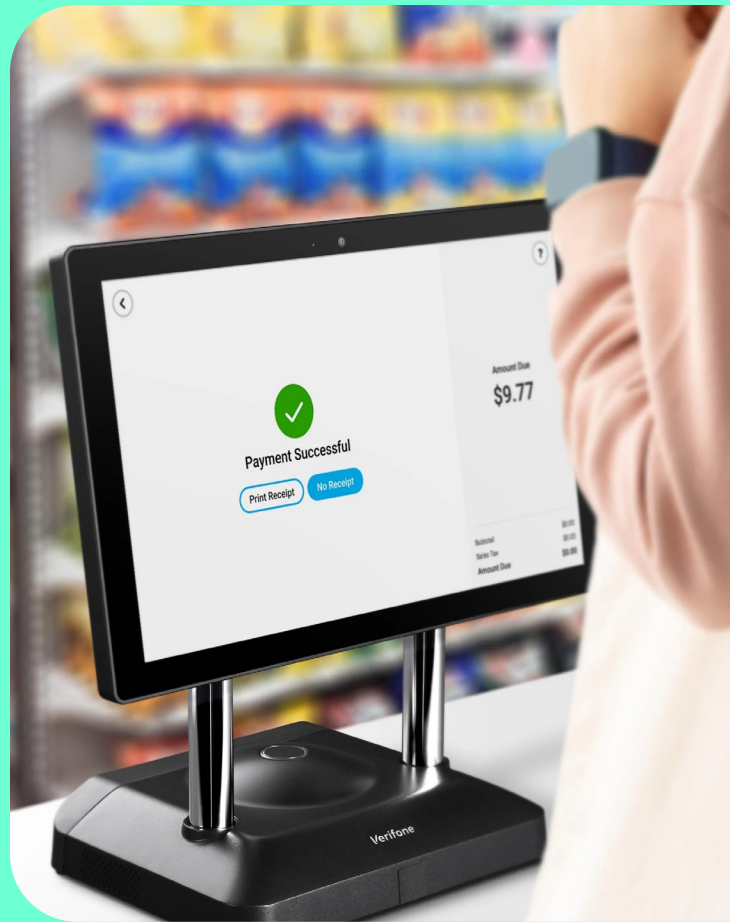

Program details

Upgrade to the C18

Save \$500 when you upgrade from Ruby2 or Topaz POS terminals to the C18.

Replace RubyCi with Commander + C18

Save \$1,500 when you upgrade from RubyCi to the Verifone Commander Site Controller and C18.

Unlock more for your business

Smarter, faster software

A modern, multi-touch interface with intuitive gestures speeds up transactions. Handle fuel purchases, age verification, loyalty programs and fleet payments with ease.

Versatile hardware solution

Switch seamlessly between cashier-led POS and customer-driven self-checkout. Maximize efficiency while reducing wait times.

24/7/365 expert support

Get live assistance anytime, day or night. We're here to keep your business running smoothly.
